Welcome to Agri Vision-2021

About Agri Vision-2021

Evation is hosting the **Agri Vision-2021: International Conference on Plant Science in Post Genomics Era** during **March 14-16, 2021 at ICAR-National Rice Research Institute, Cuttack, Odisha, India**. Agri Vision-2021 is revolving around the theme of **“Plant Genomics in Doubling Farmer’s Income”**.

Agri Vision-2021 will cover the key sectors of Agriculture and discuss various issues and challenges that the modern agriculture system is facing and how to solve them using the Genomics as a tool. This Conference calls for proposals from all the Agricultural Industry and Academic stakeholders. This Agriculture Conference will offer the ideal platform to meet & network with global experts in the sectors and to promote collaborative research and explore new business opportunities.

Agri Vision-2021 program comprises of plenary sessions, invited lectures, Oral Presentations, Poster Presentations, Networking sessions and one to one discussion sessions. The collective views at Agri Vision -2021 will help to bring out the strategies for doubling the farmers Income and moreover help in finding the solutions for a sustainable Agricultural system.

Agri Vision-2021 invites abstract from the fields of Plant sciences, but not limited to:

- ✦ Genomics Era for Plants and Crop Species – Advances made and needed tasks ahead
- ✦ Metabolomics application to improve crop yields in stressed environment
- ✦ Enhancement of Plant Productivity
- ✦ Integrative genomics & Molecular breeding
- ✦ Exploration of genetics & genomics resources from indigenous varieties
- ✦ Omics technologies in plant science: Current trends, challenges & opportunities
- ✦ CRISPER/CAS application in plant science & crop improvement
- ✦ Genetics resources & Germplasm conservation: strategies & future challenges
- ✦ Plant Disease Management: from Functional Genomics to Genome Editing
- ✦ Plant breeding from concept to practice: focusing on major crops of India (Rice, Legumes, Wheat) Floriculture & Horticulture etc.
- ✦ Using Genomics to Adapt Crops to Climate Change
- ✦ Genomics and our future food security
- ✦ New Plant varieties development: Lab to Land
- ✦ Plant Microbiology and plant Pathology
- ✦ And other allied fields of Aariculture...
